• • •

University of Northern Colorado, Greeley CO

June 2006

- **Bachelor's in Music: Theory and Composition**
- Dean's List

## Computer Information Systems Experience

USDA APHIS Web Developer

August 2015 - Current

- Both backend and frontend development building responsive PHP pages with dynamic server calls and queries
- Assisted in recovering a project entitled "Beemites ID" that should be going live soon on idtools.org
- Assisted on maintaining and administrator portal for idtools.org called factsheet manager which uses a PHP/MVC backend system

Web Data Gathering – Object Oriented Systems, CSU

May 2014

- Created using Java, this software automatically shifts through a series of web pages (such as EBay), and gathers metrics which can be used for various purposes
- Through use of regular expressions, this software searches through HTML tags and extracts the strings from desired fields and stores them as multi-dimensional arrays

Personal Projects – "Rat Race" and "NetDoodler"

May 2012 & Current

- Rat Race is a "made-from-scratch" Pacman style game where the user is a mouse that avoid cats and collect cheeses with humorous twists.
- Rate Race was composed of hand-drawn animations, self-composed music, and is all coded using C++ and SDL open-source graphics library.
- NetDoodler is a free-lance website in order to attract clients. This site is under continuous development whenever I have time

## Additional Work Experience

Music Teacher at Hourglass - Fort Collins, CO

January 2009 - Current

- Management responsibilities such as financial handling and charge rates
- Coordinated work schedules and payrates to increase revenue by 33%
