## Teaching Profile

- *Practical Intuition* – can sense and adjust personality according to cues of the pupil without losing the integrity of the lesson.
- *Flexibility* – ability to come up with innovative solutions for students that work for them. Whether be a unique exercise to work on a weakness or a practice schedule that conforms to an already busy schedule, I always aim to make the work done pleasurable for both teacher and student.
- *Rigorous work ethic* – never satisfied with amateur progress, but continually strives for professional results
- *Skilled virtuoso and theorist* - ranging from Mozart to Chopin to Bach. Have written an ear-training book, "A Musicians Guide To The 'Perfect' Ear", which sold over 100 copies as well as neo-classical piano sonatas and fugues
